

Adobe Photoshop Introduction

To **open Photoshop** go to:

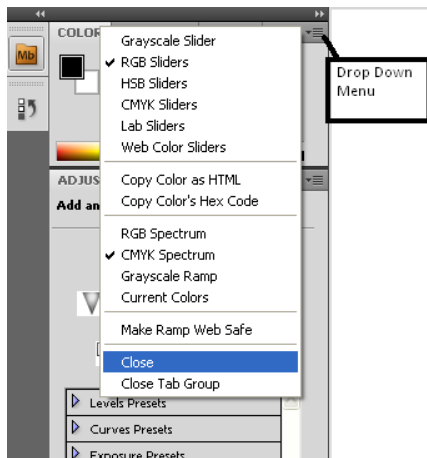

Start -> Programs -> Adobe Masters Collection -> Adobe Photoshop CS5

Get to Know the Palettes

1. Close a Palette

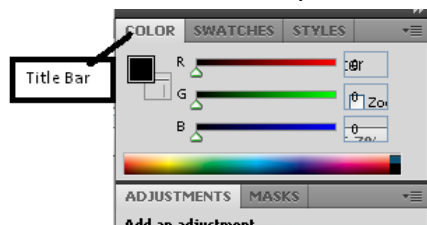

-click the top right drop down menu

-in drop down menu click close

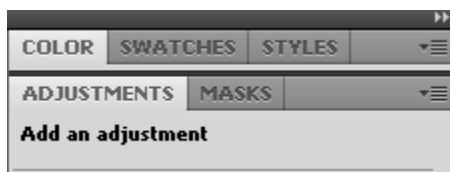

2. Move a Palette

-click the title bar of a palette. Drag it to a new location.

3. Minimize a Palette

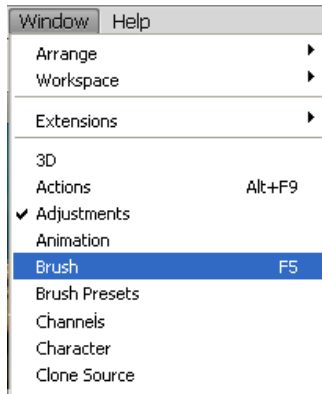

-double click the title bar to reduce the size of the palette, taking up less space in the work area

4. Open a Palette

-click the Window menu. Active palettes have a checkmark

-click a menu option that does NOT have a checkmark to display the palette

5. Reset Palettes

-from the Window menu, select Workspace, and then *Reset Essentials*

6. Close Photoshop

-from the File menu, select Exit
